Study the Advertising in this Directory

Glance over the advertisements and note the character of the business men who are appealing to you for your business through this medium. Note the wide variety of service and products that are advertised.

If your memory is good, you will probably recall that you saw most of these advertisements in preceeding issues of the directory.

AND THEN PUT THIS QUESTION TO YOURSELF

If so many keen business men keep using this directory to ask telephone users for their trade, they **MUST** be getting results from this advertising. And if **THEY** are getting results from telephone directory advertising, why can't I?

YOU CAN. And the rates are exceedingly reasonable—so reasonable, in fact that telephone directory advertising, for the quantity and quality of publicity service rendered and the results secured, is the most economical high quality advertising you can purchase.
